

Dear Fastrax Partner,

In keeping with Fastrax commitment to continually evolve our products we are announcing end of life (EOL) of the iTrax02 family of products. This is due to uNav Microelectronics (www.unav-micro.com) decision that the manufacturing of uN8031 Base Band IC will be discontinued. As a consequence Fastrax hereby gives EOL (End Of Life) notification for OEM GPS modules using the mentioned IC.

Following Fastrax products are affected by the EOL notification:

- **iSuite02 SDK, iSuite02 HDK and iSuite02 GPS Workbench**
- **iTrax02/4 , iTrax02/8 and iTrax02/16**
- **uPatch02-L**
- **uPatch02**
- **uTracker02-LLP**
- **uTracker02**
- **iTrax02 Evaluation Kit**

General Information

This EOL notification announces end of manufacturing of the products mentioned in this document. The EOL notification is distributed prior to the last purchase date in order to enable customers to make necessary adjustment to their products. Distributors and users of the above OEM GPS receivers and related software are encouraged to read carefully this material and to ensure that final purchases of products affected by the EOL notification are made according to the schedule.

Last Purchase Date and Last Delivery Date

Final orders have to be placed at Fastrax by March 15th, 2006. Last time buy orders are non-schedulable, non-cancellable and non-returnable. Other terms and conditions of the last time buy orders are according to Fastrax General Sales Terms.

Delivery of modules should be scheduled prior to or on the last delivery date of September 30th, 2006.

End of Service (EOS) Date

Last day of support for above-mentioned modules is September 30th, 2009.
Last day of support for iSuite02 SDK is December 31st, 2006.

Suggested Replacement Products and Actions

iSuite02 SDK users are encouraged to migrate to iSuite 3 SDK. Commercial terms, iTrax03-02 technical description and description of benefits over iTrax02 in addition to iSuite 3 SDK Migration Guide can be found at: <http://isuite.fastrax.fi/isuite02/isuite02.html>

iTrax02/4, iTrax02/8 and iTrax02/16 users are encouraged to replace iTrax02 OEM GPS receiver with the pin compatible iTrax03-02 modules. Alternatively users can make a re-design using the iTrax03 or iTrax03-S modules. iTrax03-02 technical description and its benefits over iTrax02, and SW configuration instructions including information about iTalk Reference Implementation Software (RIS) can be found at: <http://isuite.fastrax.fi/isuite02/isuite02.html>

uPatch02-L users are encouraged to inform Fastrax no later than January 12th, 2006 about the estimated need for the following 18 months. Based on the collected information Fastrax will propose a replacement for uPatch02-L no later than January 17th, 2006.

uPatch02 users are encouraged to wait until January 17th, 2006 for uPatch02-L replacement suggestion or to make a redesign based on uPatch100.

uTracker02-LLP users are encouraged to inform Fastrax no later than January 12th, 2006 about the estimated need for the following 18 months. Based on the collected information Fastrax will propose a replacement for uTracker02-LLP no later than January 17th, 2006.

uTracker02 users are encouraged to make a re-design with one of the following products: iTrax03 Application Board, iTrax03-S Application Board or iTrax100 Application Board.

iTrax02 Evaluation Kit users are encouraged to use the iTrax Evaluation kit with iTrax03-02 Application Board.

Fastrax Support and Assistance

In order to make the transition as easy as possible we encourage all users to read this document carefully. We also invite all users to visit our company web page at www.fastrax.fi and the iSuite SDK Developer site at <http://isuite.fastrax.fi>. In addition customers can contact Fastrax Technical Support in order to learn more about the EOL/EOS process. Support can be reached via e-mail at support@fastrax.fi. Furthermore Fastrax commercial people can be reached either directly by personal e-mail or via the general sales@fastrax.fi address.
